## **Kotkamills' water-based dispersion coated ISLA® Duo barrier board receives industrial compostability certification**

Kotkamills' easily recyclable and biodegradable ISLA® Duo barrier board has received the Seedling and DIN-Geprüft certifications for industrial compostability.

The internationally recognized certificates have been issued by DIN CERTCO to demonstrate the biodegradability of the environmentally friendly product and the compliance of ISLA® Duo with the European standard EN 13432.

“The certificates issued to ISLA® Duo are a result of dedicated product development and a very fine achievement. Developing environmentally friendly products and sustainable solutions is our main objective,” notes Kotkamills' CEO **Markku Hämäläinen**.

The unique water-based dispersion coated ISLA® Duo barrier board provides a high-quality printing surface and excellent liquid and grease resistance. The board is easily utilized with existing machinery and conversion methods. Kotkamills is at the forefront of a circular economy by providing recyclable, safe, and sustainable solutions to the consumer packaging industry.

### **About Kotkamills**

Kotkamills, located in Finland, is an experienced and responsible global partner, manufacturing innovative products created from wood, a renewable natural resource. Our range of sustainable products includes food safe consumer boards, the high-quality saturating base kraft paper Absorbex®, and ecological wood products. The fully recyclable AEGLE® and ISLA® boards, produced since 2016, were complemented in 2018 with water-based dispersion barriers replacing plastics used in packaging and food service applications. All our products are environmentally friendly, recyclable and safe to use.
